Alberta Learning

Student Population by Grade, School and Authority, Alberta 2000/2001

Contents of this Report:

Student population is a count of students registered in Alberta Learning's Student Information System. All students registered as of September 30th of a given school year are counted within the school associated with their primary registration, regardless of the type of program (e.g., day, evening, summer, continuing education) in which they are registered.

This report contains the student population count within each grade for each authority and their associated schools. Authority and schools are reported first by system (i.e., public or non-public) and then by category. Within the public system, the categories are: public, separate, Francophone and charter. Within the non-public system, the categories are: private, provincial and federal. Grades are classified as: Early Childhood Services (ECS), grades 1 through 11, grade 12 (younger than twenty years of age), grade 12 (twenty years of age or older), and ungraded.

Prior to 1995/96, student counts were referred to as "enrollments". These counts represented funded students less than twenty years of age students attending regular day programs. While enrollment counts satisfied funding requirements, they tended to underestimate the total student population as they did not include non-funded students, students attending other types of programs or attending certain types of schools, and many students over twenty years of age.

In 1995/96, enrollment counts were replaced by population counts as a new data collection methodology was introduced to capture all types of students. These new student population counts provide a more accurate and complete count of the entire Alberta population of students.

Currency of Information:

Information contained within this report represents the best information currently available. It is accurate as of the dates at the bottom of each page. Schools which have not yet submitted registration counts will not be included in this report.
